

## YBN Mentor Program

Have you ever had a situation or risk you were unsure about what to do with or where to go? Chances are if you are a new broker or even if you've been around a while you've run into challenging issues where you could use a hand from someone that may have been there before. Some of us have been lucky and have had access to that experienced broker right next door or a phone call away. However, some new brokers don't. This is why the YBN would like to ask its members that have been in the business for a while to sign up and help our fellow young brokers where they can. You do not have to have all the answers just a willingness to take a call and try to help. This is a pilot program but we would like to see it become a resource and another reason to show brokers and their sponsors the value of membership. Once enough mentors have signed up we will compile the list and make it available to the network. Please contact [ybn@ibas.ca](mailto:ybn@ibas.ca) if you have any questions or concerns regarding this pilot program. Let's grow our industry together.

### YBN Mentor Program Enrolment Form
